Ventura Tec

Ventura Tec provides its clients a Recruitment/Staffing turnkey solution, where they get instant access to the best solution, today. Some of their strengths include:

- Headhunting. An attractive job post will be created, talents sourced, and interviews done to match technical skills, location and salary to present a final list of the best CVs within 3-15 days.
- Partnership with Indeed allows unlimited access to CV database worldwide.
- Ventura Tec's volume recruitment software Compleo enables the addition of Video Interview and Test automation to processes.
- Teca, the company's LinkedIn Headhunting Bot automates the initial approach with a higher volume of candidates.
